Viva COMFORT

Xro Series
Power Hi-Lo Exam Table

Open Base, Flat Top Changing Table with a Face Hole

ADI903-219-BLK

The Xro Series Power Hi-Lo Open Base, Flat Top Changing Table with a Face Hole provides a comfortable and effiecient solution for a clinical community care environments. Designed to support a wide range of examinations and procedures, this foot power table offers smooth height adjustability from 17 to 33 inches, allowing healthcare professionals to position patients safely and ergonomically. Its flat-top surface and black medical-grade upholstery ensure easy sanitation, durability, and patient comfort, making it ideal for general exams, therapy, and assisted care applications. Built to meet the demands of high-use medical environments, the table lifts up to 440 lbs. and supports a working capacity of 550 lbs., powered by a single robust motor for quiet and consistent performance.

Built for performance and adaptability, the Xro Series table operates quietly on a standard 110V plug-in power source. Its open base allows easy access for staff and mobility aids, including Hoyer Lifts, enhancing safety and workflow efficiency in patient handling. Optional features, including guardrails, height risers, a paper roll holder, paper cutter, and hand control, allow customization for patient stability, increased table clearance, and improved workflow, making this table a dependable choice for medical offices, clinics, and community wellness facilities.

Features

Convenient: Convenient hands-free foot control or optional hand control allows for effortless height adjustment and seamless operation.

Functional: The smooth height adjustment allows for multiple positioning options for patient comfort and clinician access, safe and secure support for a variety of procedures, easy patient transfers, mobility with lockable wheels, and hygienic, easy-to-clean surfaces for efficient clinical use.

Upholstery: The durable, easy-to-clean black vinyl upholstery is ideal for sterile, high-traffic environments.

Design: The open base supports safe patient transfers and provides full access for caregivers or practitioners.

Optional Guardrails: Powder-coated steel guardrails (39" L) enhance safety during transfers and procedures.

Optional Height Risers: Steel plate risers increase table elevation, allowing higher ground clearance for Hoyer Lift compatibility.

Hygienic: An optional paper roll holder and dispenser provides quick, hygienic, and efficient patient preparation between appointments.

Application: Suitable for use in medical offices, outpatient clinics, physical therapy centers, chiropractic practices, women's health centers, urgent care facilities, hospitals and rehabilitation environments.

Robust: Powered by one motor, the table supports a weight capacity of 550 lbs., making it reliable for a wide range of patients.

Safe: The design incorporates sleek, rounded frame legs to minimize injury risks with 4 fixed knobs and 4 lockable casters for effortless mobility and secure stabilization during use.

Durable: The upholstery is crafted from antimicrobial PVC vinyl, which resists stains, mildew, oil, and wear, ensuring longevity and easy maintenance.
