

Atlas Power Hi-Lo Treatment Table with 3-Section Top

[ADI903-30](#) [ADI903-30HC](#) [ADI903-30GR](#)

The Atlas Power Hi-Lo Treatment Table with a 3-Section Top is expertly designed to meet the rigorous demands of clinical practice, providing both superior patient comfort and practitioner ease. Built with a substantial 441 lbs. weight capacity, this table ensures all patients feel secure. Its reliable electric lift system operates quietly and is conveniently controlled by either an integrated foot bar height adjustment or an optional handheld remote, allowing you to focus completely on the patient.

This table offers unparalleled adaptability in positioning. Its 3-Section top features an adjustable head and leg section that can be positioned for precise treatment angles, transitioning smoothly from comfortable lying positions to supportive upright chair setups; a capability enhanced by the optional guardrail). The table's patient-centric design includes a face hole with a removable cushion for maximum comfort. Additionally, it supports excellent hygiene through seamless integration with our Xro Paper Cutter and Dispenser. The choice is clear: unlike comparable tables, the Atlas delivers a high-capacity, whisper-quiet, and feature-rich solution that doesn't just streamline your workflow, it transforms your entire standard of care, making it the highest-value investment for your clinic.

Features

Powerful: The robust 441 lbs. weight capacity ensures safety and accommodates a diverse patient population.

Convenient: Height adjustment is easily managed hands-free via an integrated footbar control, or our optional hand remote.

Precise: The headrest offers an extensive adjustment range from -75° to 40° for targeted cervical and prone positioning.

Flexible: The back-leg rest adjusts from 0° to 80°, allowing for seamless transitions from flat lying to seated treatments.

Adaptive: The three-section top's design is highly versatile, with the head section doubling as a leg section.

Comfortable: A face hole with a removable cushion provides crucial comfort and proper alignment for patients in the prone position.

Dual-Use: Optional guardrails allow the table to function safely as a supportive treatment chair.

Hygienic: The table is built to integrate seamlessly with the Xro Paper Cutter (sold separately) and has a built-in dispenser.
