	Warning: Indication of potential personal injury.
	Reminder: Keep away from moisture. This device needs to be moisture and waterproof.
	Reminder: Always place the packaging box in the correct direction during transportation, storage, and handling to avoid damage and safety problems caused by incorrect placement.
	Reminder: This product is fragile and needs to be handled with care.

Risk of Collapse:

When the weight carried by the table top exceeds the working load, or the table top is unevenly pressurized, the bottom plate of the table top may break.

Personnel Injured:

The product is heavy. If you need to install or transport the table, please ensure that at least 4 adults are handling it together to avoid accidents.

Usage and Storage Environment Conditions

- A.** The ambient temperature requirement for using and storing the equipment is: 32°-104° F. If the equipment is exposed to an environment exceeding the specified temperature for a long time, it may cause the risk of wood deformation or cracking.
- B.** The humidity requirement for equipment transportation, use and storage environment is: 20%~80%. If the equipment is exposed to an overly dry or humid environment for a long time, it may cause the risk of wood deformation or cracking, as well as a risk of metal rusting.
- C.** The metal parts of the equipment are prohibited from contacting liquid water, which may cause metal materials to rust.

Other Precautions

- A.** It is prohibited to place near a fire source.
- B.** Do not place it in direct sunlight.
- C.** Do not place it in high-temperature places or near heaters.

Patient Load Capacity: 1500 lbs.

Instructions

Preparation and Inspection before use.

- A.** Confirm whether a product manual and warranty card accompany the product.
- B.** Confirm whether the installation hardware package is attached.
- C.** Confirm whether the components are deformed or damaged.
- D.** If any abnormalities occur during installation and use, please get in touch with the dealer in time.

- E.** After initial installation or when the table top is unevenly pressurized, the four actuators may be at different heights. Operate the Foot Controller to adjust the table top to the highest or lowest position and continue operating the Foot Controller to keep the extension and retraction lengths of all four actuators consistent. If the Table is still uneven, adjust the adjustment feet at the ends of the actuator so that all four Legs are in contact with the ground at the same time.

Maintenance of Metal and Wood

- A.** A dry towel is recommended to wipe metal and wood.
- B.** If disinfection is necessary, it is acceptable to use hypochlorous acid disinfectant or alcohol with a concentration below 70% to the maximum extent possible.

Using highly corrosive disinfectants is prohibited for disinfection. Otherwise, the wood veneer may be damaged.

Regular Maintenance

Check the table every 3 months to test its stability when pushed horizontally/vertically/laterally. If there is any shaking, tighten the connecting bolts and nuts.
