

Grande Pediatric Treatment Scale Table

ADI996-09-PS-BLU ADI996-09-PS-BLK

The Grande Pediatric Treatment Scale Table is engineered to transform the standard clinical encounter into a streamlined, patient-centered experience by integrating diagnostic precision directly into the examination surface. By embedding a digital weighing scale and an integrated height rod that measures in both inches and centimeters into the contoured, antimicrobial mattress, clinicians can now capture vital growth metrics without the need to transition small, often anxious patients between different stations. The system features an easy-to-read, illuminated LCD screen that provides measurements in both imperial and metric units, ensuring high-fidelity data collection while the child remains in a comfortable, secure position. This baby-centric design, constructed with a robust steel frame and soft-closing storage components, allows physicians to maintain a quiet, efficient environment that prioritizes hygienic integrity and patient safety.

Beyond its integrated diagnostic capabilities, this table serves as a highly functional workstation designed to accommodate the diverse needs of a modern pediatric practice. The dual-sided cabinet and Euro-style drawers with stainless steel slides provide flexible access to essential supplies from either side of the table, while the built-in paper dispenser facilitates rapid turnover between patients. Safety is further reinforced through a pull-out step stool with safety tread for independent access and a pull-out leg rest that adjusts to accommodate various patient sizes. Certified for quality and compliance, including the Pediatric Treatment Scale Table offers a 500 lbs. weight capacity and a durable powder-coated finish, providing clinicians with a long-term, sophisticated solution for delivering exceptional pediatric care.

Features

Diagnostics: The integrated digital scale and built-in height rod allow clinicians to capture growth metrics in both imperial and metric increments without moving the patient.

Precision: The easy-read LCD screen features illumination for 60 seconds to ensure accurate weight and height visibility in any clinical environment.

Comfort: 2-inch padded foam mattress with antimicrobial PU leather upholstery provides a gentle, hygienic surface that conforms to a child's natural shape.

Safety: Soft, contoured edges and a built-in safety tread on the pull-out step stool work together to prevent falls and provide secure, independent access for young patients.

Accessibility: Dual-sided cabinets and two Euro-style drawers with stainless steel slides ensure essential medical supplies are always within reach from either side of the table.

Workflow: The integrated paper roll dispenser accommodates 21.8-inch rolls to ensure rapid and seamless liner changes between patient examinations.

Durability: The robust steel body features a high-quality powder-coated finish designed to withstand daily use while remaining effortless to clean.

Versatility: An adjustable pull-out leg rest accommodates patients of varying sizes, while the overall construction supports a total weight capacity of 500 lbs.

Quietness: Both the storage drawers and the main cabinet are equipped with soft-closing mechanisms to minimize noise and reduce mechanical wear.

Precision: The integrated height rod features a user-friendly design that allows for easy unfolding of the ruler base up to a maximum of 90° for optimal patient positioning.

Specifications

Overall Size	53.9" L x 29.5" W x 37.8" H
Weight Capacity	500 lb.
Total Weight	221 lb.
Base Dimensions	45.4" L x 26.77" W x 29.13" H
Base Weight	168.65 lb.
Material	Steel
Finish	Powder Coating
Cabinet Dimensions	22.44" L x 17.32" H x 22.83" D
Upper Drawer Dimensions	Internal Dimensions: 4.7"H x 15.7"D x 22"W
Lower Drawer Dimensions	Internal Dimensions: 5.5"H x 15.7"D x 22"W
Compatible Paper Roll Size	Length: 21.8" Height: 2.28"
Certification	California CARB II Compliant
Power Cord Length	59.4"

Step Stool Dimensions	13" L x 22" W x 8.3" H
Mattress Weight	53 lb.
Mattress	2-inch padded foam antimicrobial PU leather upholstery
Mattress Dimensions	53.9" L x 29.5" W x 8.7" H
Mattress Color Options	Black and Midnight Express
Digital Scale Capacity	50 lbs.
Height Rod Measurements	Centimeters-Inches
Power Requirements	5V 1A
Height Rod Range	0 -100 cm (0-39.4")
Weight Limits	The screen will display "Err" if 50 lb. capacity is exceeded
