

Folding Parallel Bars

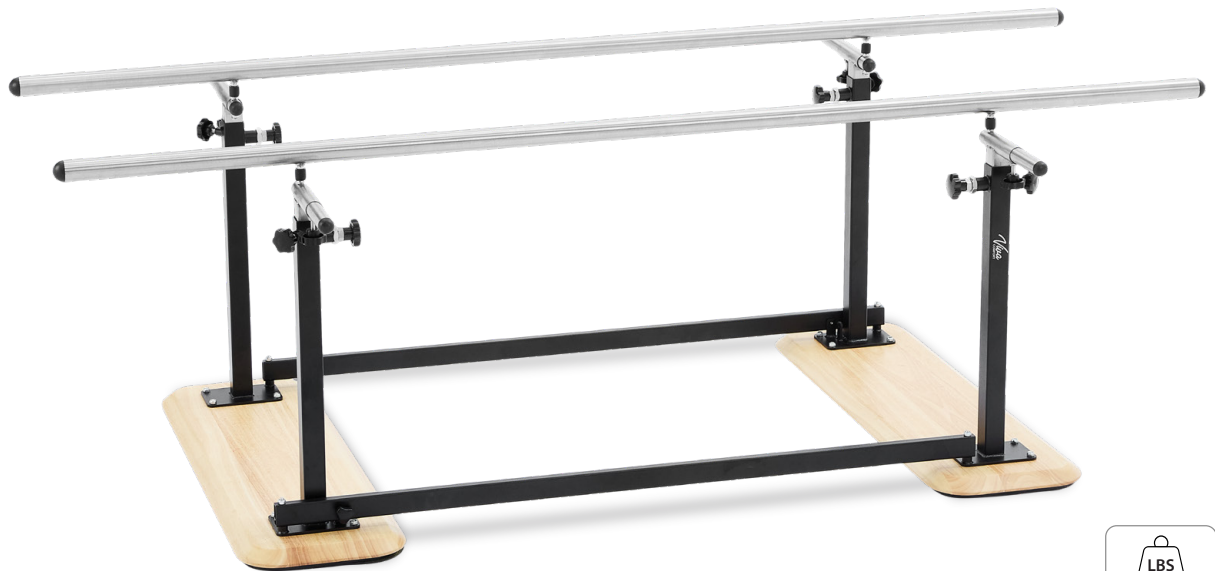

ADIME905-01

Folding Parallel Bars

7 Feet

Elevate your rehabilitation sessions to new heights as these bars blend convenience and strength, providing an exceptional experience for therapists and patients alike. These width-adjustable bars feature double stiffening rails for unmatched stability and support throughout each exercise. The one-piece stainless-steel handrails provide a reliable grip and long-lasting durability. Easy height adjustment with screw knobs and nine numbered height options allows effortless customization for the perfect therapeutic setting.
