Viva Premium Comfort Grande Series Steel Exam Table, Midnight Express

Our Viva Comfort Grande Steel Exam Tables are made from robust steel to be corrosion resistant, withstand continual physical stress, and be simple to maintain, fortifying its longevity. We offer our exam tables with two mattress options; one standard and one contoured to provide optimal comfort for patients. The base of our table has a dual-sided, connecting cabinet, allowing you to position the table however you like. For your frequently used medical items, the two euro-style drawers with stainless steel slides in the front of the base will offer you suffcient storage and access. A pull-out step stool is located in front of the table with a safety tread so patients can safely get on and of the exam table. We've outfitted each exam table with powder-coated adjustable stir-ups with contoured heel cups, allowing for comfortable foot placement.

Additionally, a pull-out leg rest can accommodate patients of various heights and allow for a more comprehensive examination. Our tables have a built-in paper dispenser compatible with 21.8" paper rolls, so you can quickly change the liner between patients. Our provided antimicrobial mattress is designed to provide a safe and hygienic environment for your patients by reducing the risk of cross-contamination. Our Viva Comfort Grande Steel Exam Table's extensive features make it the idyllic medical table you can trust to give you ample storage while not compromising on space and offering everything your patients need.

FEATURES

Accommodating: Adjustable backrest that can be positioned at different heights for the patient's optimal comfort.

Contoured: Our optional premium mattress design is great for conforming to the natural shape of a patient's body.

Convenience: A pull-out step stool is provided so patients can get on and off the exam table.

Built-In: The included paper roll dispenser and paper cutter allows for quick changing of the liner.

Storage: Dual-sided cabinet and two front-facing euro-style drawers with stainless steel slides.

Sanitation: The antimicrobial mattress is designed to provide a safe and hygienic environment for patients.
