The Pointe Power Exam Table redefines the medical examination experience, blending functionality with sophistication, making it a must-have for discerning medical professionals. Ergonomically designed, our ADA-compliant exam table features adjustable back and seat sections, allowing you to customize each patient's positioning based on their medical needs. The electric height adjustment controlled by a sleek handheld remote and foot pedal ensures seamless transitions. The gas spring-controlled backrest, which can be maneuvered, and manual-controlled seat rest provide a layer of adaptability, empowering medical personnel with precise adjustments for optimal examination conditions. The outfitted pull-out leg rest can accommodate patients of various heights.

We married convenience with innovation by including a storage drawer in the front of the base to provide ample storage. For an added storage option, you can fit two spare exam paper rolls under the backrest area of the exam table. The easy-to-clean pull-out basin helps streamline workflow. With an impressive weight capacity of 450 lb., it is a sturdy companion in providing top-notch patient care. Its furnished antimicrobial upholstery guarantees a hygienic environment. The customizable mattress colors, Black and Blue, elevate the overall aesthetic. The Pointe Power Exam Table is not just an investment; it's a statement of commitment to quality healthcare, inviting medical professionals to redefine their examination practices with style and precision.

FEATURES

- Compliant:** Our exam table meets ADA standards, featuring adjustable height and ample space, ensuring accessibility for all patients.
- Adjustable:** Seamlessly transition between patient examinations using the handheld remote and foot pedal for electric height adjustment.
- Backrest:** Enhance adaptability with a gas spring-controlled backrest, which can be maneuvered manually, providing precise adjustments.
- Seat rest:** Fine-tune patient comfort with a manual-controlled seat rest, providing additional control during examinations.
- Convenient:** Maintain optimal sterility with an accessible paper roll dispenser located on the back of the table, allowing quick liner changes.
- Storage:** Convenience meets innovation with a front-facing storage drawer, providing ample space for frequently used items.
- Outfitted:** Streamline workflow and efficiency with the easy-to-clean pull-out basin.
