Treatment Table with Shelf and Adjustable Back, Black

Our Treatment Table with Shelf and Adjustable Back is an indispensable asset for any medical facility, engineered to meet the rigorous demands of modern healthcare environments. Its stainless-steel frame offers exceptional durability and easy cleaning, which is ideal for high-traffic medical environments. The adjustable backrest, with multiple recline angles ranging from 0° to 67°, ensures patient comfort during various treatments. When not in use, the foldable leg design and less than 75 lb. body allow for efficient space-saving storage. Our antimicrobial mattress delivers an extra layer of hygiene, which is crucial for maintaining a sterile treatment environment. The integrated paper roll dispenser reassures a sanitary space for your patients. The outfitted shelf will help provide convenience for medical supplies, as well as spare exam paper rolls.

This table is practical and patient-friendly, built to endure the rigors of daily clinical use. With rubber feet to prevent floor scratches, it offers stability and protection in any setting. Measuring 31.5 inches in height, 27.5 inches in width, and 74.8 inches in length, the table delivers ample surface area for various treatments without compromising maneuverability. Whether used in hospitals, rehabilitation centers, or private practices, this table ensures superior performance with its high-quality materials and meticulous design—an essential tool for professionals who demand reliability and efficiency.
