**Pediatric Grande Steel Exam Table,
Midnight Express**

When outfitting your pediatric exam room, ensuring safety and comfort for your smallest patients is paramount. The Pediatric Grande Steel Exam Table, designed with child-friendly features, offers the ideal solution for pediatric healthcare settings. Its robust steel body will continuously provide long-lasting durability and is effortless to clean between patients. The dual-sided cabinet ensures easy access to storage from either side of the table, while two Euro-style drawers with stainless steel slides offer ample space for essential items. An outfitted pull-out step stool with a safety tread provides secure access for young patients. At the same time, the cushioned, contoured mattress conforms to the children's bodies for ultimate comfort and safety. The antimicrobial material reduces the risk of cross-contamination, ensuring a safe environment for every patient.

Additionally, this table offers a pull-out leg rest for accommodating different patient sizes. The built-in paper dispenser, compatible with 21.8" paper rolls, also makes changing liners between patients seamless. With its thoughtful, baby-centric design and high functionality, the Pediatric Grande Series Steel Exam Table gives healthcare professionals the peace of mind they need while caring for their young patients.

FEATURES

Contoured: The curved edges and premium mattress design conform to the child's natural shape, ensuring a safe and gentle examination experience.

Safety: The soft, curved edges help prevent children from rolling off the table during the examination.

Dual-Sided Access: Storage from both sides of the table allows flexibility in placement and accessibility.

Soft Closing: Both the drawers and cabinet feature soft-closing mechanisms to minimize noise and enhance safety.

Step Stool: A pull-out step stool with safety tread allows young patients to access the table easily, and it pushes back smoothly when not in use.

Integrated: A built-in dispenser with storage for extra rolls ensures fast liner changes.

Antimicrobial Protection: The antimicrobial mattress helps maintain a hygienic space, reducing the risk of cross-contamination.
